Which mulch is right for me?

Hardwood Fines:

Made from Oak trees (Primarily the Bark), Deep rich color, Consistent sizing, Easy to spread, Quick to decompose adding nutrients to your soil

Premium Oak Bark:

Made from Oak trees (Primarily the Bark), Heaviest weight, Finely processed (triple), Dark brown/Auburn tint, Quick to decompose adding nutrients to your soil, Most popular mulch we carry

Dark Hardwood:

Made from a variety of trees (Primarily wood), Dark brown color, Slow to decompose, Inexpensive ground cover

Premium Blend:

An equal blend of the Premium Oak Bark and Hardwood Fines

Walnut Brown Color Enhanced Hardwood:

Made by adding a child, pet and plant friendly water based colorant to the Dark Hardwood, Holds its color much longer than non-colored mulches, Consistent sizing, Slow to decompose

Color Enhanced (Red, or Black):

Made by adding a child, pet and plant friendly water based colorant to recycled lumber, Holds its color much longer than non-colored mulches, Consistent sizing, Slow to decompose

Play Mat:

Chipped wood mulch, Certified for use in playground areas, Light brown in color, Slow to decompose

Premium Shredded Cedar:

Natural insect repellent, Golden/Orange color, Slow to decompose, Pleasant aroma

Mushroom Compost:

Great soil enhancer for use in vegetable gardens, landscape beds and lawns, Quick to decompose adding nutrients to your soil

Garden Mix: (50% Top soil, 25% Torpedo sand, 25% Mushroom compost)

For use in vegetable gardens, landscape beds, lawn seeding (We can custom blend to meet your needs)

How do I know how much to order?

1 cubic yard:	2 inches deep covers 162 square feet (Apx. 10' by 16' area)
	3 inches deep covers 108 square feet (Apx. 10' by 11' area)
	4 inches deep covers 81 square feet (Apx. 10' by 8' area)
