# Which mulch is right for me?

## **Triple Processed Premium Oak Bark:**

Made from Oak trees (Primarily bark), Heaviest weight, Dark brown/Auburn tint, Quick to decompose adding nutrients to your soil, Most popular mulch we offer.

## **Hardwood Fines:**

Made from a variety of hardwood trees, Deep rich color, Consistent sizing, Easy to spread, Quick to decompose adding nutrients to your soil

## **Dark Hardwood:**

Made from a variety of trees (Primarily wood), Dark brown color, Slow to decompose, Inexpensive ground cover

## **Premium Blend:**

An equal blend of the Triple Processed Premium Oak Bark and Dark Hardwood

## **Color Enhanced: (Walnut or Black)**

Made by adding a child, pet and plant friendly water-based colorant to the triple processed dark hardwood, Holds its color much longer than non-colored mulches, Consistent sizing, Slow to decompose

## **Color Enhanced: (Red or Gold)**

Made by adding a child, pet and plant friendly water-based colorant to recycled lumber, Holds its color much longer than non-colored mulches, Consistent sizing, Slow to decompose

## **Play Mat:**

Chipped wood mulch, Certified for use in playground areas, Light brown in color, Slow to decompose

## **Premium Shredded Cedar:**

Natural insect repellent, Golden/Orange color, Slow to decompose, Pleasant aroma

## **Compost:**

Great soil enhancer for use in vegetable gardens, landscape beds and lawns, Quick to decompose adding nutrients to your soil. (Material is an aged horse manure product... not made from landscape waste)

## **Garden Mix: (50% Top soil, 25% Torpedo sand, 25% Compost)**

For use in vegetable gardens, landscape beds, lawn seeding (We can custom blend to meet your needs)

# How do I know how much to order?

<b>1 cubic yard:</b>	<b>2 inches deep covers 162 square feet ( Apx. 10' by 16' area)</b>
	<b>3 inches deep covers 108 square feet ( Apx. 10' by 11' area)</b>
	<b>4 inches deep covers 81 square feet ( Apx. 10' by 8' area)</b>
